

INTERNATIONAL GAS TURBINE CONGRESS 2015 TOKYO

11th Congress in Japan

November 15-20, 2015

The International Gas Turbine Congress (IGTC) was first held in 1971 in Tokyo. Since then, nine congresses in the series have been held in Tokyo(1977,1983,1987,2003,2007), Yokohama(1991,1995), Kobe(1999) and Osaka(2011). A great number of investigators and engineers joined from various areas of the world and presented their results of research or experiences. Information exchange was also actively carried out at the meeting and lobbies. Last IGTC was successfully held in 2011 in Osaka with about 480 participants and 190 presentations.

Gas Turbine Society of Japan (GTSJ) has scheduled the eleventh IGTC in the autumn of 2015. GTSJ is pleased to inform colleagues in the world of the outline of our congress prior to the first circular to be distributed in the next spring. We look forward to your participation.

SPONSORING SOCIETY

Gas Turbine Society of Japan (GTSJ)

EXECUTIVE COMMITTEE

Watanabe, T. -chairman (Univ. of Tokyo)

CONGRESS DATES

Nov. 15 (Sun) – Nov. 20 (Fri), 2015

Welcome Reception: Nov. 15 (Sun)

Technical Sessions: Nov. 16 – Nov. 19

Plant Tour: Nov. 20 (Fri)

Deadline for the submission of application form with abstract will be scheduled around the end of January, 2015. Details will be included in the first circular.

CONGRESS SITE

Toranomon Hills

Toranomon, Minato-ku, Tokyo

5 min. walk from subway station, Toranomon, in the south area of the Imperial Palace.

(Toranomon Hills is currently under construction to be open in the summer, 2014.)

TECHNICAL PROGRAM:

Papers related to all aspects of gas turbine, steam turbine, wind turbine, turbocharger, fuel cell, and energy system are welcome. User sessions will also be organized. Approximately

180 papers will be selected for presentation on the basis of technical review. Keynote speeches, panel discussions, and seminars are also planned.

EVENTS:

During the congress, plant tours, welcome reception, and banquet will be planned to make the congress more fruitful.

GAS TURBINE EXHIBITION:

An exhibition related to gas turbines, energy systems, turbochargers, accessories, parts, materials, instrumentation, software, etc. will be held in the exhibition hall at the congress site.
